Greetings & Corporate Philosophy

Our
Philosophy

"Creating Better Logistics"

As a member responsible for logistics functions that support society's economic activities, we will fulfill our mission and responsibilities.

President
Minoru Suzuki

Greetings

Since our founding in 1886 (Meiji 19), our company celebrates its 140th anniversary this year. With extensive experience and a management policy that prioritizes trust, we have continuously incorporated new information and technologies to provide logistics services that benefit our customers.

We have business bases mainly in Yokosuka, Yokohama, Tokyo, and Chiba, which surround Tokyo Bay, and own heavy cargo warehouses equipped with large overhead cranes in Ayase City, Kanagawa Prefecture, and Ota City, Gunma Prefecture. We work closely with domestic and international group companies to provide comprehensive services from port transportation to customs clearance, storage, and delivery.

We will respond to your diverse logistics needs with a solid system and proven track record.

President : Minoru Suzuki

Business Overview

01

Port Transportation Business

Port Transportation

As a Primary Contractor (Type 1 License), we mainly operate port freight handling services at ports in Tokyo Bay. (Cargo handling for automobile carriers, coal cargo handling in thermal power plants, raw sugar cargo handling, scrap cargo handling, etc.)

02

Warehouse Business

Warehouse

We have storage facilities for import and export cargo at various ports in Tokyo Bay, and in inland areas, we own heavy cargo warehouses equipped with 30-ton overhead cranes.

03

Import/Export & Customs Brokerage Business

Customs Brokerage

Leveraging our domestic and international networks, we carry out integrated operations across various transportation modes such as sea, land, and air. Additionally, in 2017, our company obtained certification as an authorized customs broker.

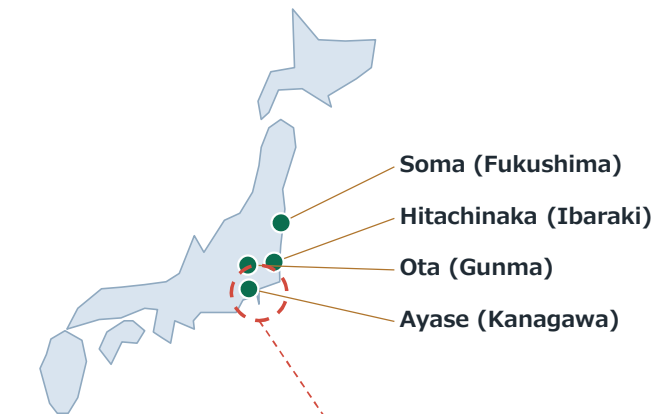

04

Freight Motor Vehicle Transportation Business

Truck Transportation

Using our own fleet and our network of partner companies, we offer delivery services tailored to the shape and characteristics of your cargo.

National Network of Bases

Our in-house network of bases controlling Tokyo Bay

- ▶ Storage facilities are located at five ports in Tokyo Bay (Yokosuka, Yokohama, Kawasaki, Tokyo, Chiba).
- ▶ We have warehouses equipped with overhead cranes of 20-30 tons located inland (Ayase City, Kanagawa Prefecture / Ota City, Gunma Prefecture) and Kanazawa Ward, Yokohama City, capable of handling heavy loads.
- ▶ The Honmoku Office is equipped with temperature-controlled and fumigation facilities.
- ▶ We offer integrated transportation from customs clearance to delivery.
- + Through partnerships with partner companies spread nationwide, we can arrange pickup, storage, and delivery beyond our in-house network of locations.
